

Dharmagra Care – Initial Development Screening Questions (2.5 Years Child)

These 10 questions are designed as the first screening page for parents of a 2.5-year-old child. If multiple red flags are identified, the app should recommend a detailed developmental assessment.

1. Does your child respond when you call his/her name?

Always / Sometimes / Rarely / Never

2. Does your child use at least 20–30 meaningful words?

Yes / No / Not Sure

3. Can your child make eye contact while interacting with you?

Always / Sometimes / Rarely / Never

4. Does your child point to things he/she wants?

Yes / No

5. Does your child point to show you something interesting?

Yes / No

6. Does your child follow simple instructions? Example: Bring the ball or Come here.

Always / Sometimes / Rarely / Never

7. Does your child play with toys appropriately? Example: Rolling a car, stacking blocks, feeding a doll.

Yes / No

8. Does your child enjoy playing with family members or other children?

Yes / No / Sometimes

9. Does your child repeatedly do any of these activities?

Hand flapping / Toe walking / Spinning objects / Repeating sounds / None

10. Are you concerned about your child's development?

Not concerned / Slightly concerned / Moderately concerned / Very concerned

Auto Alert Logic

Low Concern: Mostly typical responses.

Developmental Monitoring Recommended: 2–3 red-flag responses.

Assessment Recommended: 4 or more red-flag responses, especially poor response to name, poor eye contact, no pointing, limited speech, or repetitive behaviours.
